## Product Description

### Split Ring Pipe Hanger

They offer compatibility with various types of insulation materials, allowing for the installation of insulated pipe systems.

These clamps can be employed in the construction of scaffolding and temporary structures, providing support for pipes and conduits.

Pipe clamps provide stability and support for the installation of hydronic heating systems, such as radiant floor heating.

Pipe clamp is applied in the areas of pipeline systems. E.g.: sanitary and heating installations, gas distribution systems, air conditioning systems, etc..

#### Feature :

- 1) Bigger adjusting range
- 2) Evenly stress when fastening
- 3) Wrest resistant and high crushing strength
- 6) sizes: by customers' requirements
- 7) high quality and competitive price
- 8) It has different bandwidths as per the different sizes.
- 9) The band thickness is also different for different bandwidths
